

MY Daily Bird Care

Name: _____

Week: _____

I need to...	M	T	W	T	F	S	S
Once a day							
Feed my bird fresh food and seeds							
Give fresh, clean water							
Remove waste and old food							
Every few days							
Wipe down any dirty areas in the cage							
Offer safe fruits and vegetables as a treat							
Once a week (with a grown-up!)							
Fully clean the cage and replace bedding/liners							
Wash food and water dishes							
Check for any signs of illness or discomfort							
Offer a shallow dish for bathing or mist with water							
Once a month (with a grown-up!)							
Deep clean and sanitize the cage							
Trim nails if needed							
Check beak and feathers for any issues							

Remember to only do these tasks once a month!

Did you know...

All birds have feathers!

Feathers help birds fly and stay warm. They're made of keratin, the same material as your hair and fingernails.

Remember

- ♥ Always wash your hands before and after handling your bird.
- ♥ If my bird seems sick, stops singing, or is not eating, tell a grown-up.
- ♥ Birds love attention - spend time talking to or playing with them!
