What is a Target Market Determination?

This Target Market Determination (TMD) sets out the class of customers that each product has been designed for and is suitable for. It sets out the target market for each product, conditions and restrictions placed on their distribution, events and circumstances that would reasonably suggest that the TMD is no longer appropriate and review periods and reporting obligations for the TMD.

This TMD does not provide any financial product advice on the product and does not take into consideration the objectives, financial situation and needs of individual customers.

The terms and conditions of each product are set out in the PDS. This TMD does not form part of the insurance contract and is not a summary of the product's terms and conditions. Customers should review the PDS before making any decision in relation to the products.

Any terms used in this TMD that are defined in the Corporations Act 2001 (Cth) have the same meaning as in that Act.

This TMD is available to any person at <https://www.petbarn.com.au/services/pet-insurance>

Effective date of this TMD: 14 December 2023

PetSure (Australia) Pty Ltd (ABN 95 075 949 923, AFSL 420183) (PetSure) acts for Hollard under a binding authority. Other key attributes of these products include:

- they do not provide comprehensive cover for preventative care costs and general pet maintenance costs like grooming and pet food;
- an annual condition limit is applicable to these products which means a significant portion of the veterinary bill will need to be paid by the customer. This means your out-of-pocket expenses will be at least 10% of the eligible veterinary expenses (for pets younger than 8 years of age) or at least 35% (for pets older than 8 years of age) and more if the annual condition limit (of \$500 or \$1,000 depending on your product) is reached; and
- cover is subject to annual limits (which can increase from time to time to help keep pace with the cost of veterinary care), terms, conditions and exclusions. Examples of key exclusions include waiting periods at the inception of a new policy and coverage exclusions for chronic pre-existing conditions.

Likely objectives, financial situation and needs of customers in the target market

The likely objectives, financial situation and needs of customers in the target market is contribution towards eligible veterinary expenses that they incur, to help ensure their pet can receive appropriate treatment and to reduce (and not cover in full) the cost to the customer of that treatment.

Customers in the target market will be able to afford to pay:

- premiums for the product, which will increase from year to year;
- the full amount for treatment upfront to the veterinary clinic before seeking claims reimbursement for the eligible expenses, unless using the GapOnly® claims payment platform (in which case, customers need to be able to pay upfront the 'gap' payment - the 'gap' means the difference between the veterinary invoice for eligible expenses and the claim benefit calculated under the policy terms and conditions, if any); and
- any veterinary expenses above the accepted claim amount, including:
 - costs above the applicable benefit percentage (up to 90% of eligible veterinary expenses or 65% once the pet is 8 years of age and older);
 - costs above the annual condition limit (up to \$500 or \$1,000 per condition per policy period depending on the product chosen); and
 - costs above the applicable sub-limits (where applicable).
